About me

Hey! I'm Sharang.

I'm a product/UX designer based in Pune, India. I'm a self-taught designer with over 6+ years of experience in the design industry. I've worked on a range of projects right from designing (also developed some in the past) simple native mobile apps, websites and web apps for start-ups and scale-ups to complex, data-heavy systems and platforms. Whether it is doing extensive research, writing user stories, designing wireframes or crafting the design prototypes for a visual design, I bring the quality of work and my creative design brain to the table. 🙂

Experience

UX designer

6sense | Apr 2022 - Present

- I mainly focus on enhancing the experience of 6sense Integrations marketplace and working towards making 6sense ABM into a CDP platform.
- I'm also working on an onboarding UX of the 6sense platform as a whole.

Product/UX designer

Avalara | Jan 2020 - Apr 2022

- I worked on enhancing the experience of Avalara Integrations through UX design and its methodologies.
- I mainly worked on designing a low-code/no-code platform for building integrations for Avalara partners and have worked on revamping the entire integration marketplace experience for Avalara's Small Business customers.
- Re-designed Avalara Tax codes search experience and Avalara taxability matrix.
- I actively contribute to Avalara's Skylab design system.

Senior UX/Product designer

The Data Duck | Jun 2018 - Dec 2019

- I've successfully handed-off 5 projects along with end-to-end UX solutions like research material, design prototypes, analysis, reports and much more.

- I mainly worked on providing design solutions for different products and services by applying UX methodologies. I also did rapid prototyping for some projects to test the solutions.

UX designer, Co-Founder

Octopus ITES | Jun 2016 - Jun 2018

- This was my own start-up where we, the team, provided various digital solutions and services to our clients such as design, development and support services.
- We also received an award and got recognized under the **Start-up India initiative**.

Education
